

Number			
Number and Place Value	Addition and Subtraction	Multiplication & Division	Fractions (decimals & percentages)
Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number.	Add and subtract one and two digit numbers to 20, including 0.	Through grouping and sharing small quantities, pupils begin to understand multiplication and division.	Recognise, find and name a half as one of two equal parts of an object, shape or quantity.
Count, read and write numbers to 100 in numerals; count in multiples of 2s, 5s & 10s.		Through grouping and sharing small quantities, pupils begin to understand doubling numbers and quantities.	Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.
Given a number, identify one more and one less.		Through grouping and sharing small quantities, pupils begin to understand finding simple fractions of objects, numbers and quantities.	
Read and write numbers from 1 to 20 in numerals and words.		Pupils make connections between arrays, number patterns, and counting in 2s, 5s & 10s.	

Shape, Space and Measure, and Statistics			
Measurement	Geometry – Properties of shapes	Geometry – Position and direction	Statistics
Compare, describe and solve practical problems for lengths and heights.	Recognise and name common 2D shapes including, e.g., rectangles (including squares), circles and triangles.	Describe position, direction and movement, including whole, half, quarter and three-quarter turns.	
Compare, describe and solve practical problems for mass/weight.	Recognise and name common 3D shapes including, e.g., cubes (including cubes), pyramids and spheres.		
Compare, describe and solve practical problems for capacity and volume.			
Compare, describe and solve practical problems for time.			
Tell the time to the hour and half past the hour, and draw the hands on a clock face to show these times.
